Education

Central University of Karnataka, BSc in Computer Science
Crescent PU College of Science, PUC - 2nd Year
Subjects: Physics, Chemistry, Mathematics, Biology, English, Urdu
Achieved: 73%

May 2025
March 2022

Internship

Software Engineer Intern, HackerRank

- Built an app to compute the similarity of all methods in a codebase, reducing the time from $O(n^2)$ to $O(n \log n)$.
- Automated the extraction and processing of large datasets from legacy systems using SQL and Perl scripts.

Certification

Certificate of Appreciation

Awarded by **Edunet Foundation**, in collaboration with **EY Global Delivery Services** and **AICTE**, for successfully completing a 6-week internship on

"Building Modern Web Applications with MERN Stack" under the Next Gen Employability Program.

Duration: December 9, 2024 - January 20, 2025

Certificate ID: AICTENG25_35609

Projects

Building a Real-Time Document Collaboration Tool

- Implementing a MERN-stack (MongoDB, Express.js, React, Node.js) application integrated with WebSockets for real-time communication.
- Ensuring low latency updates, end-to-end encryption, and scalable architecture.
- Features include real-time multi-user collaboration, conflict-free document synchronization, and a secure, scalable design.

Personal Expense Tracker (Full-Stack Application)

Dec 2024

- Developed a web app for tracking personal expenses with user authentication.
- Features include income/expense management and visual summaries using pie and bar charts.
- Built with MERN stack (MongoDB, Express, React, Node.js) and Chart.js.

Weather App with Location-Based Forecasting

Dec 2024

- Created a weather app that provides real-time data based on user location or search.
- Integrated OpenWeatherMap API for current and 7-day forecast.
- Built with HTML, CSS, JavaScript, and React.

Skills

Languages: C, C++, Java, Python, Bash programming

Other Skills: Android Development, Operating Systems
